

I am opposed to the expansion of LPFM stations. I threatens viable public services which have established licenses with the FCC, and developed and nurtured a public which they now serve. I am a listener and supporter of AIR1 Radio, and it serves me in Salem Oregon. The lyrics of the songs played have a very positive influence on its listeners. Certainly it is meaningful that the programming is fully funded by donors in support of this type of music and comment. And it's not like there are several stations up and down the dial from which to choose. Air1 Radio is unique, and has a clearly documented history of helping others to change their lives for the better!! I am at a loss to understand how the FCC's preempting and breaking of a longstanding public service record can possibly be in the public's best interest.
